SUMMARY

Passionate Frontend Developer pursuing a B.Tech in Computer Science Engineering, proficient in building dynamic, responsive, and user-friendly web applications. Strong foundation in HTML, CSS, JavaScript, and Java, with a keen interest in Full Stack Development.

EXPERIENCE

Worked on multiple projects including *AnnDaan*, a digital food donation platform developed during Lake City Hack 2.0. I have also built a Stock Management System as part of my project using Java. Additionally, I developed and deployed a static website using HTML, CSS, and JAVASCRIPT. These projects reflect my hands-on experience in Frontend development, API integration, Deployment, and responsive web design.
